Naturally signals optimal calf development

New Sprayfo Ultimo saves farmers 3 weeks in rearing time

"Revolutionising calf nutrition

Inspired by nature

- Discoveries made by researching nutrients in cow's milk and calf development
- Restores natural signals found in cow's milk to trigger gut development
- Promotes stronger growth

"Just as nature intended

Built to nurture

- Balanced fatty acid profile
- Optimised fat levels
- Bioavailable trace minerals

"Designed for consistent growth and optimal calf development

Proven on Farm

- Calves show more consistent development
- Better growth through weaning
- Lower rearing and health management costs

€40 TO €60

"Build a productive and resilient herd for a profitable and sustainable dairy future

This LifeStart scientific discovery is the blueprint for Sprayfo Ultimo
